Forbes Agency Council

2019 was definitely a year of incredible growth and expansion for Website Depot. In this continuing path of progress, we're ending the year with being accepted into the [Forbes Agency Council](#) community.

This is an invitation-only community that gathers executives from several successful agencies in different areas. Public relations, media strategy and advertising are among such areas, and we're proud to represent Digital Marketing and web design in such prestigious, important community.

What is Digital Marketing?

The practice of making use of every method available on the web in winning new businesses and thus growing the bottom line.

My Goal

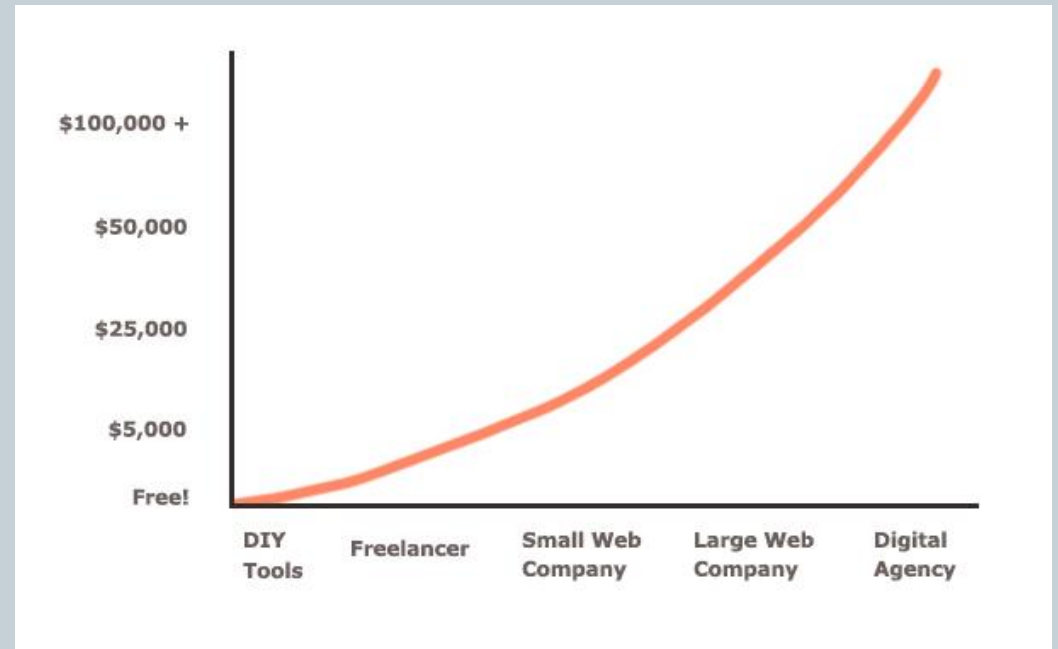

The reason I do this:

Helping small business owners understand digital marketing and helping small businesses grow.

Building a Presence

True success will take time, but a good business plan will set you up for success.

Why You Need a Website

For most, the best foundation is a solidly performing, visually appealing website.

WHY I LIKE WORDPRESS

WORDPRESS

- The Number 1 CMS in The World
 - Open Source
 - Customizable/Scalable
- Ranks Better, By The Numbers

eCommerce Tips

- Abandoned Cart Feature
- Newsletter opt-ins throughout site
- eCommerce Conversion Tracking

Search Engine Optimization

- Key aspect of Digital Marketing
- Intent is already established by the user

How To Succeed at SEO

- Have Your Website be Relevant With Content and What You Want to Rank For
- Be user-friendly – Be secure, load fast enough, work on all devices (especially mobile)
- Have a nice portfolio of links, especially authoritative websites that link back to you

SERP-What is It?

- SERP stands for Search Engine Ranking Page
- It's important because you can get a lot of information on the competition by analyzing the results that come up on a page:

The image shows a Google search results page for the query "search engine optimization". The search bar at the top contains the text "search engine optimization" and is labeled "Search Query" with a red arrow pointing to it. Below the search bar, there are tabs for "Web", "News", "Videos", "Books", "Images", "More", and "Search tools". The results show "About 71,700,000 results (0.35 seconds)".

The results are categorized into three groups:

- Paid Search Advertising:** This group is highlighted with a red box and labeled "Paid Search Advertising" with a red arrow. It includes three ads:

Social Media Paid Advertising

- Not For Everyone
- Several Industries Thrive With This
- Allows for Targeting By Specific Interests
- Can Be Very Cost-Effective if Targeted Smartly

Online Reputation Management

Online Reputation Management (ORM) should be practiced proactively, you shouldn't need a PR crisis to get you to move.

Build A Great Response

- Create properties you control.
- Blogs
- Social Accounts
- Small Websites
- Business Profiles
- Take Control of them and monitor them!

Search Engine Optimization

The process of getting your business to the top position of search engines:

400,000 searches on Google per second

That makes for Roughly **3.5 Billion searches per day**

That's over a trillion searches per year

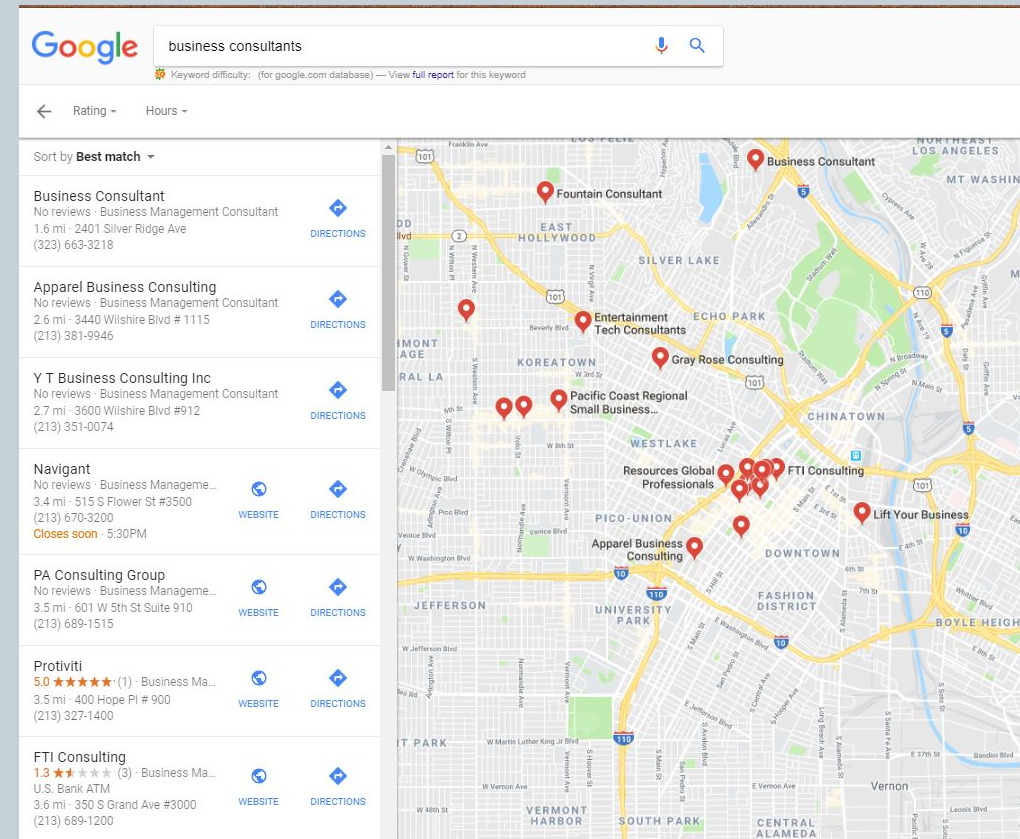

Local Search Tips For Google My Business

- The best way to have prominence on map searches is to have a Google My Business profile.

From there, engage with customers and visitors to get reviews.

- Use as many features of your listing as you can, add photos. If you can afford it, take a virtual 360 tour. These help you rank higher on maps.

Local Citations

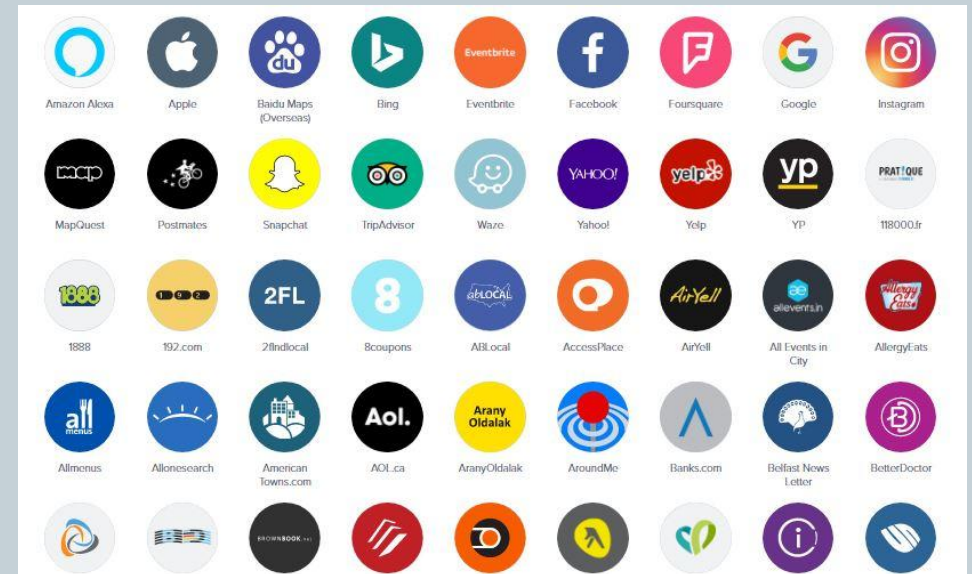

Use directories to your advantage

These are great for your SEO!

Get your name, number, and URL out there.

There are hundreds of major citation sites that list your address and information throughout the web.

If you need help getting started with optimizing your listings, go to [CitationsManager.com](https://www.CitationsManager.com)

- #1 Dealbreaker - make sure your information is ACCURATE.
- If you're trying to list yourself in Los Angeles, but really aren't in L.A., you'll likely end up at the bottom.
- Rest assured that users will complain about inaccurate information.

E-mail Marketing

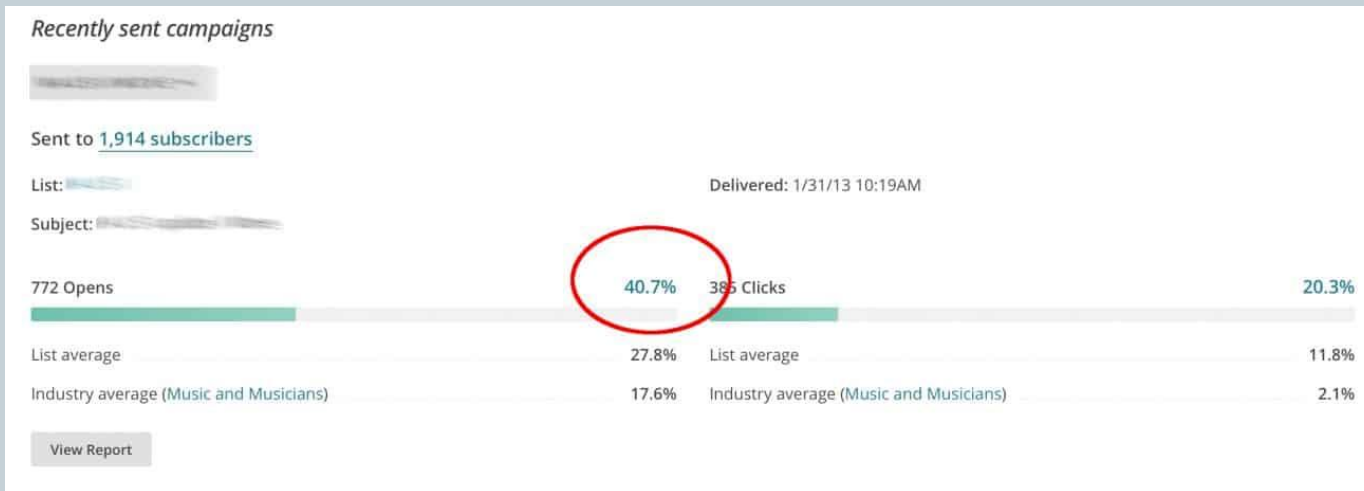

E-mail marketing can have excellent results, given the following:

1. You have a large mailing list that you've worked to acquire
2. The mailing list must be acquired directly through you - no purchasing lists or e-mailing addresses that haven't opted in.
3. You must hone your ability to effectively segment those lists (i.e. old customers, new signups, event signups, non-converted leads).

Email Marketing: Giveaways

Giving an added value to your email makes for more clicks, more opens, and a successful campaign!

Best Topics:

- Promotions
- Upcoming Events
- New Products / Service Offerings
- Insightful, informative articles
- Contests and Giveaways
- A Major Company Milestone (Boost Reputation)

#1 TIP FOR EMAIL MARKETERS

Make sure your list is opted-in, then keep track of your metrics – that's the biggest tell that the content in your email blasts are relevant and compelling.

If you get a large number of unsubscribes, it's time to re-think the content of your mailers.

Offline: And the Best Source of Leads is:

Referrals!

These are practically sold for you by someone else.

These kind of leads have the best closing rate out there. This applies to eCommerce businesses, online services, retail, restaurants, b2b, or just about any other sector you can think of.

TYPES OF ADS

- SEARCH ADS
- TRADITIONAL PAY FOR PLAY
 - DISPLAY ADS
 - VIDEO ADS
 - APP ADS
- MOBILE ADS

CRM SYSTEMS

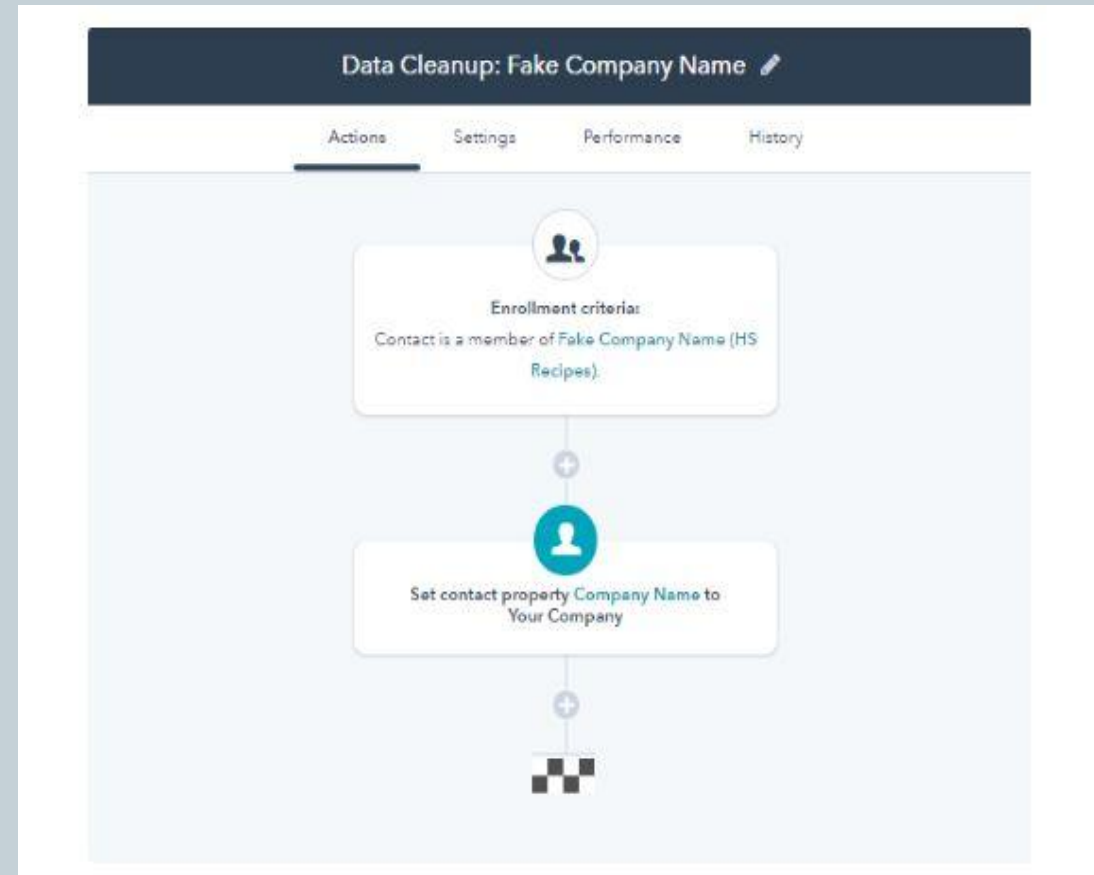

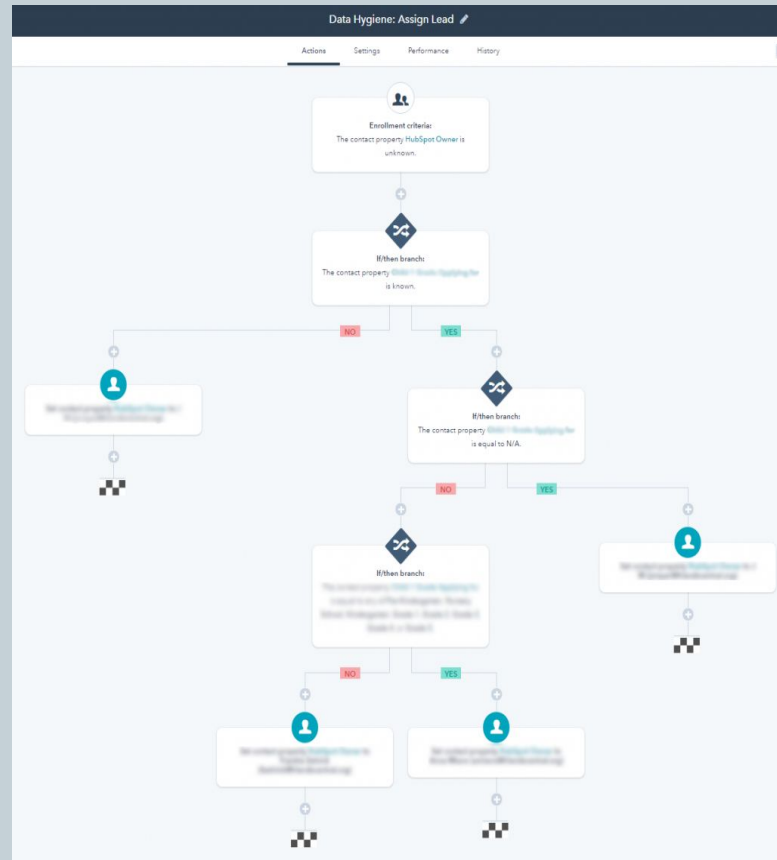

CUSTOMER RELATIONSHIP MANAGERS

Why use them?

- They help organize your leads
- They track your best sources of business
- Allow you to automate actions
- They integrate with a plethora of major business software

WORKFLOWS

LEAD FUNNELS

Some of the Leading CRM's

Some of the leading CRM's today are

- HubSpot
- Salesforce
- Freshsales
- Pipedrive
- Zoho
- InfoFlo

TIPS For CRM Users

- My best advice to any CRM user is to integrate both your phone and your email with your CRM system.
- From there, you'll be able to track progress and records on interaction with clients.
- Make sure every interaction is logged in the CRM.

“I realize there's no way to possibly fit every single tool and platform available out there, but the author makes a very good effort to put each in a nutshell. Rather than simply listing stuff to do, he explains how to use each in tandem. I found the book quite insightful.”
